

Manuel Zeitlin Architects, Nashville's maverick design firm, is accepting applications from architecture students for an eleven-week summer internship beginning the first week of June and ending the second week of August 2023.

Our paid internship position is for a student who meets the following criteria:

- Is currently attending an NAAB accredited Architectural Education Program
- Have successfully completed at least three years of under-grad or two years of graduate architectural design studio
- Has opened an NCARB AXP Architectural Experience Program record
- Is available for Nashville-based, in-person, 40-45 hours per week of employment during internship period
- Has experience working with Revit software (preferred, but not required)

The successful applicant can expect mentorship from our talented, professional architects and sign-off on relevant AXP experience hours as well as active participation in various stages of building design and construction including:

- Design team and client meetings
- Construction site visits
- Design and construction drawings

MZA is a highly respected architectural and interiors design firm that has produced innovative building designs throughout the Nashville area for last 40 years. We are a sixteen-member, employee-owned firm who work collaboratively on a broad range of building projects including single-family homes, multi-family residences, mixed-use office, medical, educational, religious, and other types of buildings. We are a spirited bunch who produce serious work. We seek out ventures that push our abilities and clients who embrace our mission to create impactful designs that challenge convention and engage the community to enrich lives and inform positive change.

Applicants should send a physical or digital resume and portfolio of relevant work before January 31 to:
